Dear Carmen:

In order to expedite matters for you and Pat, I'm sending you some preliminary information on the Chicana situation in this area.

I have attached some information on the University of Texas Law Students, organizations and special research. This is preliminary, so let's keep in touch for more information. The only institution which is netamente for Chicanas in Texas, is a research center that Evey Chapa and I started in 1973; Chicana Research and Learning Center. She is staff, I am Board Chairwoman, and we already have some funding.

Other than that, we do have some organizations with a great deal of potential. Anyway here it is for your files and use.

Sincerely,

Martha P. Cotera
