Dear Olga:

I feel very honored in being among the "first batch" of accomplished Chicanas. It means so much to me because after all, one of the reasons one gets so involved is to leave a legacy, something someone for our children to look up to. Because our generation was so deprived.

Now it seems really undeserving to be selected for the very effect for which our family has been working these many years.

I am very pleased, very flattered and most honored. It will be a responsibility in the future to remain a model of professionalism and dedication to our beautiful cause. You have given me an additional awesome task!

Sincerely,
For La Cause

Martha P. Cotera
